

# Model 120 Covert Option <sup>TM</sup> Inside Waistband Holster

Bianchi's Covert Option<sup>TM</sup> is the perfect inside waistband holster. It has dual loop straps for stability, a slight forward cant for efficient drawing while seated, and a reinforced top for effortless one-handed holstering. The most unique new feature of this holster is the suede center panel that provides a form fitting carry for your firearm as the belt wraps around the front of the holster. Plus, its high holster back protects clothing and keeps gun edges away from your body, so it's not only functional but comfortable. Only from Bianchi.

See reverse side for ordering information.
